

Kelly Lorena Battistoni Villota

AI Automation Engineer • Workflow and Integration Specialist

Cali, Valle del Cauca, Colombia • kellybattistoniv@gmail.com • +57 313 581 0417 • linkedin.com/in/kelly-battistoni-villota-mechanical-engineer/ • kellybattistoni.github.io/portfolio

PROFESSIONAL PROFILE

Mechanical engineering graduate (full scholarship) who pivoted hands-on analytical rigor in SOLIDWORKS, ANSYS, and MATLAB into AI automation engineering. Built and shipped 30+ production workflows across N8N, Make.com, Supabase, and Google Cloud for 7 concurrent clients, including SHRM, TransPerfect, and 911 Restoration, cutting manual process time by 80%. C2 level English speaker with a track record of translating complex technical systems into scalable, production ready automations for international teams across the USA, Asia, and Europe.

EDUCATION

Universidad Autónoma de Occidente, Cali, Valle del Cauca, Colombia

B.S. in Mechanical Engineering, Full Scholarship Graduate

July 2020 – May 2025

Thesis: Numerical Study of Non-Spherical Harmonic Particles in Simple Shear Flows — hdl.handle.net/10614/15976

Liceo Anglo del Valle, Cali, Valle del Cauca, Colombia

Technical High School Diploma in Business Management

July 2020

EXPERIENCE

SEOMarketing.com, Remote

AI Automations Manager (part time, concurrent with thesis)

May 2024 – May 2026

- Built and deployed 30+ production automation workflows across N8N, Make.com, and Supabase, cutting manual process time by 80% for 7 concurrent clients including PlanITROI, CISOnow, TP Digital, and 911 Restoration.
- Led a 3 person automation team, coordinating workflow architecture and delivery standards across 7 concurrent client engagements spanning multiple platforms (Make.com, N8N, Supabase, Google Cloud).
- Resolved 20+ production incidents per month across client automations, diagnosing platform API changes and integration breakages to maintain uninterrupted delivery for concurrent engagements.
- Partnered with cross functional teams (engineering, marketing, client success) to scope and deliver automation solutions end to end, acting as the technical liaison between build teams and client stakeholders.

SKILLS AND INTERESTS

Automation and AI: Make.com, N8N, MCP Servers, MCP SDK, Claude Desktop, Prompt Engineering, RAG, OpenAI, Whisper, Perplexity, Ollama

Languages and Runtimes: Python, JavaScript, TypeScript, JSON, Node.js

Frontend: React, Vite, GSAP, i18next

APIs and Integrations: APIs, HTTP Requests, Webhooks

Version Control: GitHub

Infrastructure and Databases: Docker, Railway, Supabase, Redis, BullMQ, Google Cloud, CI/CD, Pinecone, Chroma (vector databases)

Analytics and CRM: Google Analytics, Search Console, Looker Studio (Data Studio), Charts API, Airtable, Notion, Google Workspace, GHL (GoHighLevel), HubSpot

Outreach and Growth Tools: Anymailfinder, Buzz.ai, PhantomBuster, Apify, IgnitePOST, Giftsenda

LABORATORY / ENGINEERING TOOLS

SOLIDWORKS, ANSYS, MATLAB, Octave

LANGUAGES

Spanish: Native • English: C2 (EF SET Certified) • Italian: B1 • French: A2

SOFT SKILLS

Leadership, Team Management, Assertive Communication, Problem Solving, Adaptability, Quick Learner, Proactivity, Cross functional Collaboration, Real time Decision Making, Training and Mentoring, Project Management, Critical Thinking, Attention to Detail, Time Management, Prioritization, Process Optimization, Stakeholder Communication, Results oriented
